INNOVATIVE COLLEGE OF PHARMACY

Innovative College of Pharmacy is a premier and oldest College in Greater Noida, which has provided more than 1500 Pharmacists to the Society. Here, students are getting educated to be successful persons in all areas of their life with inner joy and peace along with Academic Education. Our Alumni are spread in different countries of the world, excelling in their job and in higher education, innovatively. Students are given freedom and opportunities to bring out and grow in their talents, by conducting scientific and cultural programmes, sports and arts activities and many more. They are motivated, encouraged, corrected, guided and supported with love and care to be a model and blessing to people who come across their lives.

At the Innovative Institute of Law (IIL), we believe that learning goes beyond textbooks. This year, our students explored the integration of Artificial Intelligence in the legal field, gaining valuable exposure to tools shaping the future of law. To bridge classroom learning with real-world experience, we organized moot court competitions judged by esteemed members of the High Courts & Supreme Court. These events, covering topics like the Kisan Andolan, enhanced students' skills in advocacy, research, and legal reasoning. Our students also secured prestigious internships at institutions such as the Supreme Court of India, NCDRC, and the National Human Rights Commission. An eye-opening visit to Tihar Jail provided firsthand insights into prison systems and correctional practices.

We are proud to announce that the Institute has become the first law college under Chaudhary Charan Singh University to earn NAAC accreditation with a B++ grade a reflection of our commitment to academic excellence. As we welcome a new batch of aspiring legal minds, we remain dedicated to nurturing purpose-driven, socially responsible professionals ready to lead in the legal world.
